As requested during today's managers meeting, I spoke to Ragesh to find out who had been contacting PADEP and asking questions about activities involving PADEP's sites. Sorry for naming names, but Kathy asked, so here they are: Mike Towle, Charlene Creamer, Lori Baker and Karl Markowitz. As noted in the message below, Ragesh will have a one-pager prepared for each of these sites to summarize the actions that PADEP has taken at these sites (presumably so we'll stop asking questions).

Reason those sites are listed is due to EPA's inquiries and interest shown by various EPA staff. Those listed sites are actively worked upon by PADEP and I am intending to get one page summary for each site and distribute at the meeting.

Ragesh,

The one comment that came back after I circulated the agenda had to do with the list of sites that you wanted to discuss. Most of them are not remedial, removal or pre-remedial sites, so we're not sure what it is you want to discuss regarding those sites?

Anything to add or delete? I would like to send it to my RD and he asked for it today. I have until Wednesday to respond to him.
